Please see the attached diagram which outlines the entrance/exit process for ice users.

Groups for both the Schout Pad and the Optimist Pad will form separate lines outside the arena doors following the indicators on the posted signage. The coach/permit holder will be met by the screener 15 minutes prior to your scheduled ice time to complete the screening process, who will then proceed to actively screen the remainder of the group prior to admittance.

Masks **MUST** be worn at all times, including while lined up outside the building, except while on the ice participating in your sport.

Please follow the markers as indicated in the facility. The screener, or any facility staff can provide clarification should any questions arise.

Physical distancing **MUST** be practiced by all patrons of the facility both outside and inside the facility. Ice rentals are spaced 30 minutes apart to stagger entry times to help to accommodate physical distancing amongst the groups.
